

Kruger National Park Safaris 3 Day Kruger Safari

KNP 1 \$1660 incl. TAX PER PERSON / MIN 2 PEOPLE

Day 1 Johannesburg to Kruger National Park

We depart from Johannesburg between 06h00 and 07h00 in the morning and make our way to the Kruger National Park, arriving around 12h00. Before entering the Kruger we will stop for lunch in one of the small town's en-route to the park. Your first afternoon will be spent driving inside the Kruger searching for wild animals; you will be accompanied by a professional guide, who will gladly divulge information on the parks amazing diversity of wild and plant life.

We get to our first camp in the late afternoon where you check into your accommodation and have enough time to go for a swim, purchase necessary items at the camps shop, or simply take a stroll around the camp to stretch your legs after a long days driving.

Your guide begins preparing the evening meal just outside your chalet, under the stars and served by candlelight. Apart from the cooking your guide is of course available to identify all the nocturnal sounds you hear, and possibly entertain you with some amazing experiences encountered over many years of guiding in Africa.

Day 2 Kruger National Park

The early morning knock on your door signals the start of your second day in the Kruger. After a cup of coffee and some snacks, your guide packs the vehicle and you begin your early morning drive. It's still really early in the morning, nice and cool, and a perfect time to spot elusive predators that at this time of the day are still very active.

After a successful morning drive you stop at a picnic spot to enjoy a relaxed breakfast.

After breakfast we continue driving, searching for animals.

After a full morning's driving we reach our next camp where you check in and have a couple of hours to relax during the hottest part of the day, when animals are generally less active and hiding from the midday sun.

In the late afternoon you embark on sunset/night drive which gives you an opportunity to spot some of Africa's elusive, nocturnal animals such as hyena, leopard, owls, nightjars, civet, genet etc.

Upon your return, your guide has already prepared your evening meal. Sitting outside on a balmy African night listening to lions roaring in the distance, or the whoop of a hyena is a fantastic experience and one which often brings our guests back to Africa.

Day 3 Kruger National Park to Johannesburg

Safaris are all about early mornings, getting out there and seeing animals. This morning is no exception and whilst you are leaving Kruger today, there is still time for a couple of hours drive in the hope of seeing and possibly photographing animals you have not yet seen. Your guide knows the Kruger intimately and will focus on areas he knows produce animals you still need to see, it's not guaranteed but you stand a good chance.

Sadly after a couple of hours we depart Kruger and make our way back to Johannesburg. But not before showing you some of South Africa's most spectacular scenery.
